

SAUMILI HALDAR

Software Developer

7063737272 | haldar.saumili843@gmail.com | github.com/SaumiliHaldar | saumilihaldar.in

Professional Summary

Software Developer with 1+ years of experience designing, developing, and deploying production applications using Python, FastAPI, Django, React.js, and Next.js. Skilled in REST API design, real-time systems, and full-stack solutions across desktop, web, and MQTT-based applications. Experienced in Git, GitHub, testing/debugging, and delivering accurate, reliable, and maintainable software with reducing supervision.

Technical Skills

Languages: Python, Java, JavaScript (ES6+), TypeScript

Backend: FastAPI, Django, REST APIs

Frontend: React.js, Next.js, Tailwind CSS

Databases: MongoDB, PostgreSQL, MySQL

Tools & DevOps: Git, GitHub, Postman, Vercel, Render

AI/LLM: Gemini API, Hugging Face, Dialogflow ES

Professional Experience

RS Consultancy

Software Engineer

Apr. 2025 – Present

West Bengal, India

- Engineered a Windows-based desktop application that streamlined core workflows, boosting operational efficiency by ~20%.
- Architected real-time, MQTT-based communication across multiple client systems, achieving sub-100ms data-exchange latency.
- Designed and maintained responsive web interfaces that supported key workflows and improved end-user usability.
- Diagnosed and resolved critical performance bottlenecks through systematic testing and debugging, strengthening reliability.

Winstreet Infotech

Python Developer Intern

Oct. 2024 – Apr. 2025

Remote

- Developed and maintained a Python-based e-commerce platform, strengthening system stability and performance.
- Partnered directly with clients to translate business needs into functional features, consistently delivering on schedule.
- Executed rigorous testing and debugging across all modules, cutting post-release defects by ~25%.
- Contributed to code reviews and technical documentation, raising code quality and long-term maintainability.

Projects

Railyn – Railway Booking Engine | FastAPI, React, MongoDB, Redis, MQTT

- Built a full-stack booking platform with atomic seat allocation and secure Razorpay payments.
- Implemented real-time delay alerts, QR-coded PDF tickets, and automated waitlist upgrades.

DevTrackr – Developer Analytics SaaS | FastAPI, React, Gemini API

- Built an AI-powered GitHub analytics platform with real-time repository synchronization.
- Integrated Gemini API with FastAPI and React to generate automated developer productivity insights.

Lysn – PDF to Audio App | gTTS, PyPDF2, MongoDB GridFS

- Built a web application converting PDF documents into audio using gTTS and PyPDF2.
- Implemented OTP/Google OAuth authentication and scalable file storage using MongoDB GridFS.

NexGenie – Chatbot for LMS | FastAPI, Redis, Dialogflow ES, Gemini API

- Built an AI chatbot for learning platforms with personalized recommendations and real-time assistance.
- Developed a scalable backend using FastAPI and Redis, integrating Dialogflow ES and Gemini API.

Education

Omdayal Group of Institutions

Bachelor of Technology, Computer Science & Engineering

Oct. 2021 – Jun. 2025

Howrah, West Bengal

BNR Excellence Academy

Higher Secondary Education

Jun. 2019 – Apr. 2021

Kharagpur, West Bengal
